

THE 1963 AND THE 1962 Misses Torrance are shown with Flavio Bisignano, chairman of the Miss Torrance Committee for the Torrance Chamber of Commerce. Marlane Norsoph is in the center and Bobbet King is at the right. Bisignano is president of the Flavio Beauty College and each

year offers a scholarship to the winner of the Miss Torrance contest. Bobbet graduated from the Torrance college just a few days before the 1963 Miss Torrance contest was held. Bobbet plans to attend Cal Poly at San Luis Obispo in the fall.

Korean Vets: Six Months to Collect Dividend

Korea Conflict veterans have about six months remaining in which to take advantage of the \$18 million in special insurance dividends to be paid to those exchanging "RS" insurance policies for policies bearing the letter "W."

The special dividend offer expires September 13, 1963, according to the Veterans Administration's Insurance Service.

It applies only to Korea Conflict veterans whose insurance policy number is preceded by the letters "RS." Other government life insurance policyholders are not eligible.

New Private Aircraft Built By Company in Torrance

A prototype of the Derringer, an entirely new, two-place, twin-engined aircraft, has been built by the Wing Aircraft Co. of Torrance.

Named after the famous compact pistol, the Derringer was developed for business aviation with emphasis on high performance with low initial and operating costs for today's private aircraft traveler, who is a businessman first and pilot second.

The plane can be owned and operated for 10-11c per aircraft mile with an annual utilization of 600 hours.

The Derringer has a cruising speed of 228 miles per hour. San Francisco, 340 air miles away from Torrance,

could be reached in an hour and a half. Oklahoma City, which is 1025 miles distant, could be flown in 5 hours and 20 minutes without refueling.

The plane has side-by-side seating with dual controls, 360 degree visibility and a fighter-type tilt-up canopy on production models. Cockpit entry is from either side and the new aircraft has a readily accessible 22-cubic-foot baggage compartment.

Both landing gear and flaps retract electrically. Flight at field price for the standard Derringer is \$27,500.

Two production models of the Derringer are in advanced stages of construction by Transland Aircraft, a divi-

sion of Hi-Shear Corp., at its factory on the Torrance Municipal Airport. These two aircraft will be assigned to static test and FAA certification.

Production of the aircraft will begin in Okmulgee, Oklahoma early in 1964. Surveys by Wing Aircraft show that more than 57 per-

cent of all trips in 4-to-7 place airplanes are made with not more than two people aboard. These surveys also reveal that twin-engined planes are 1 1/2 times more active in trip frequency than single-engined craft.
